These newspaper advertisements were specially prepared by Widex. They are designed so that they can be enlarged or reduced by your local newspaper to fit their space requirements. Insert your name, address and phone number in the area at the bottom of the ads (the newspaper will do this for you).

An estimated 50 million Americans are affected with ringing in the ears known as tinnitus.

The unique ZEN hearing aid feature – which has been shown in a clinical study to demonstrate promise in the treatment of tinnitus – is now available in all CLEAR hearing instruments.

Other CLEAR benefits include:
- Ultimate and natural sound quality
- Automatically adjusts to help you hear and understand better
- Ultimate listening comfort in quiet and in noise

Indications for Use:
The ZEN Program is intended to provide a relaxing sound background for adults (21 years and older) who desire to listen to such a background in quiet. It may be used as a sound therapy tool in a tinnitus treatment program that is prescribed by a licensed hearing healthcare professional (audiologists, hearing aid specialists, otolaryngologists) who is trained in tinnitus management.
